

MOY KEE WAS HOT

He Denounced the Chinese Immigration Laws as Barbarous.

HE HAS NO USE FOR BREWSTER

And Denies By the Grand Jury That Somebody Will Get Into Trouble.

My Kee, a wealthy and influential Chinaman of Chicago, was in the city yesterday in the interest of Sun Wing and Hung Hing, two celebrities arrested some time ago in Ludington for violating the Chinese exclusion act, whose case was brought up in the United States court yesterday on a hearing on an application to be admitted to bail pending a decision of the United States supreme court on an appeal. The men were admitted to bail in the sum of \$1,000 each, with sureties in this city who were secured by My Kee. Mr. Kee stated to a reporter for the Herald last evening that he had been working in cases where his countrymen had been held on an arrest for illegal residence in the United States in various states in the union. It was through his personal efforts that the immigration act was declared unconstitutional by Judge E. R. Nelson of Duluth in the case of Ah Luk. He has been a resident of Chicago for thirty years, and is a prosperous cigar manufacturer there. He employs from twelve to twenty men in his factory and has the appearance of being a shrewd business man. Contrary to the custom of most Chinamen, My Kee brought his wife with him to this country and carries her picture in a locket attached to his watch chain. He still keeps his "pig tail," but follows the American style of dress. He speaks the English language fairly well, including all of the common expressions in his excited conversation.

Denounces the Law.

While speaking of the Chinese immigration act he said: "You Americans claim to be Christians, but this law shows you are not civilized. This is a bad government. You would not use your dog like you treat Chinamen. This law will be declared unconstitutional by the supreme court, and that Brewster will get himself into trouble if he attempts to take any more Chinamen to San Francisco. See? If D. E. Corbett, the attorney who had the case, had known any law, these boys would have been admitted to bail long ago. When I get after them they will know their business."

Mr. Kee, in speaking of world's fair matters, said the Chinese government will not make an exhibit at the world's fair on account of the attitude of the United States government toward Chinese immigration. There will be a Chinese village there showing the mode of living in China, and a few Chinese merchants will exhibit their wares independent of the government. Mr. Kee has been appointed interpreter at the big fair by Wah, Mee & Co., and wears his official badge. He left for Chicago last night.

Trouble in the Choir.
For some time past considerable trouble has arisen over the choir service in the Division Street M. E. church, and kicks came so rapidly and with such momentum that Prof. Langdon, the leader, handed in his resignation to the church committee on music. This committee held a meeting to consider the matter and decided not to accept the professor's resignation, but that the choir must be reorganized with a quartet. The professor has decided to remain, and negotiations are pending with two or three talented singers for positions in the quartet.

They saw into our business every time they get a chance, and raise Satan generally, but they never ask for a pass."

STREET OPENING TROUBLE.

Twelfth Ward Residents Complain of Curious Injustices.

Alderman Stein had to talk to an irritated crowd of twelfth ward persons in the council committee rooms last night. The trouble is over the opening of Brown avenue, south of the E. & N. tracks, from Buchanan to Division street. The difficulty is one of those arising indirectly from the extension of the city. The people of that neighborhood purchased their lots by deeds and bonds, the small buyers receiving in return a twenty-five foot front to a street. These owners have been made no such reservation and when the street came to be opened the heavy holders were awarded big damages by the superior court; enough in some cases to more than offset the assessments against them for their share of the improvement. These holders are now receiving proportionately heavy to help pay the damages to the heavy holders, while some others who had not dedicated the ends of their lots towards the street got but \$1 each, having been assured that their assessments would be light on account of their not appearing in the case to seek heavier damages.

There was still another party headed by Attorney Frank Holmes, whose property is west of Buchanan street, beyond the opening, who were also assured that they ought not to pay anything for a street that's of no use to them. The matter was discussed in all its phases by nearly all hands and was finally left open another week to see what additional light could be obtained before making an appeal. These additions to the city are giving rise to many little difficulties of the kind. Even on parcels of land platted while in the townships and afterward taken into the city, the situation of streets, etc., is not absolutely permanent until the plat has been approved by the board of public works.

The committee on sewers listened to the pros and cons of a sewer destined to East Fulton street, between Prospect street and College avenue, but nothing was decided.

IT'S TREE PLANTING DAY.

Everybody Should Set Out a Tree, Shrub or Flower.

Today is Arbor day, according to the governor's proclamation. In some of the public schools the tree planting custom will prevail, but if the day is observed no more than its predecessors there will be but few trees set out at this particular time on private grounds.

George W. Thomson, president of the Hill Tree association is, as usual, a notable exception to the prevailing indifference. Arbor day is with him a real genuine holiday, and to witness the planting of a sapling is the crowning pleasure of his life. He says that the association hasn't urged its object much yet on account of the backwardness of the spring, but it is hoped that Arbor Day will give tree planting a good start. The association has already done a good deal in agitating tree planting not only in the hill district but elsewhere, and also in acting as a free bureau of information on the subject.

The governor in his proclamation most earnestly recommends "the planting of trees, shrubs and flowers, that homes, highways and public places may be improved and adorned, and future generations benefited."

ARTHUR WOOD'S FUNERAL.

Numerous Friends Followed His Mortal Remains Yesterday.

The remains of Arthur Wood were borne to their last resting place in Valley City cemetery yesterday, followed by a host of old friends and members of the Masonic fraternity. The house was crowded with old residents and other friends at the services. The casket was covered with flowers and the occasion was one which showed the sincere regard in which the deceased was held. The Rev. McRoberts of the Smith memorial church conducted the service. His remarks were on the life of the man that death is a gift, especially as a relief to a life of responsibility and care when it comes so peacefully as in the case of deceased.

It was a gift to him of a new life in which he had long believed. The speaker said he grew more and more to believe that Christianity was less in words than in deeds, such as visiting the afflicted and keeping one's self "unspotted from the world." That Mr. Wood was such a man was told in the daily newspapers, by his every acquaintance and by his life career. He was of the unpretentious, yet useful character, who bore his own infirmities and troubles without complaint and with a cheerful spirit, yet ready to assist others at all times. While it was a loss to home, wife and sons, it was also a gift to them of the hope of meeting him in an eternal home at last. A quartet choir sang several appropriate selections.

Over fifty members of the Masonic lodge arrived in a body during the service, and at its close six of them carried the casket out onto the lawn, where it was viewed by the others. The procession was a long one, including a great variety of conveyances.

STRIKE AND BAD WEATHER.

Conspire to the General Badness of the Mason Trade.

The principal occupation of many of the bricklayers is still that of sitting about headquarters discussing the situation and telling stories. The weather of late has combined with the strike to add to the dullness of the business. For all that, the men feel that they have little to fear. They claim that not a workman has struck the city this week from outside, and that the fact that there is a strike on is a generally known one that the men stay away.

Contractor Vincent, who works his men but eight hours, has the Royston Straw Goods company's big job, so that job will go along rapidly. The men are working eight hours on the Wood estate building on Campus street. The buildings on which nine hours are worked are kept moving, but very slowly. The workmen are on the lookout for small jobs and manage to keep quite a few men going now.

HOW THEY SAVE MONEY.

Women of Westminster Church Will Buy a New Carpet.

The Christian Workers, composed of women of the Westminster church, relieved some time ago that by various methods of self privation they would raise money to buy a new carpet for the church. Last night they held a meeting in the parlors of the church to compare notes of progress and make reports of the degree of success attending their work. The sum of \$60 was put into the fund last night. This amount was accumulated in some of \$1 from

each person saved by various means. Several of the women related how they had saved the dollar. One woman did the washing one day and saved the dollar she would have paid the washerman. Another woman baked her bread; another staid at home when an interesting play was presented in the opera house; others saved street car fare, etc. Others who have been saving in this way were not present, but another meeting will be held to receive the reports. The bricklayers were saved after the reports had been made.

The Hydraulic Plant Again in Possession of the Company.

Michael will be served up for breakfast this morning by the Hydraulic company, as usual, after a five day's suspension on account of the legal interest of Elmer Lamoreaux. Last night the sheriff turned the plant over to Robert L. Thompson, president of the company, so his agent. The sheriff was given a receipt for the same, containing a clause giving the officer authority to assume control at any time. This clause was taken for the purpose of giving the company the right to operate the plant so that it may be earning something for the parties concerned.
